FRIDAY, April 21-6 P. M. wne gold and stock markets have been quiet to-day, under a prevailing indisposition to speculate upon their e President through the city and the full resumption general business. Stocks were, however, moderately in the morning, although somewhat irregular and in the afternoon, and gold closed at an of 2% upon the opening price. The supply on the street is light, and the return of parcels of five-twenties by the Persia, toge-with advices regarding future shipments, has rket. The falling off in exports, together with the ex-ted increase of imports—our stock of foreign merchanse being at present unusually small—operates in the me direction, while the policy of the administration looked forward to by some as likely to conduce to activity in the Gold Room. In other words, the genera age within the next month. The quotations during th

higher than at the morning board on Monday last, but the rest of the list showed a decline. New York Central wenties sold at 107. At the open beard at one o'clock were a fraction higher for railway and misus shares. At the second regular board there a further improvement. Erie was 1% higher than t the closs of the first board. New York Central 1½, Fort Wayne 1, Northwestern ½. Quicksilver was 1½ ower, Reading ½. Coupon ten-forties rose to 94¾ a Sixes of 1881 and coupon five-twenties we dull and % a % lower. At the open board otations ¾ a 1½ per cent higher. Erie closed 78%, Hudson River 107, Reading 103½, Rock Island 95½, Michigan Southern 63%, Cleveland and Pittsburg 73½, Northwestern 29½, Fort Wayne 96, Cumberland 47½, Quicksilver 63.

The easy condition of the money market is highly worable to speculation for a rise in stocks, the supply capital being in excess of the demand at from four to speculation in it is of a transient character, is ted to strengthen confidence in the per manence of the rise. Meanwhile the buils have an ad-vantage in the facility with which they can carry stocks. In the discount line prime paper passes at 7 a 8 per cent.

109% for their sixty day bills, and sales have been made at 109% a 109%. Opinions among those most intereste cie shipments, on the theory that for a considerable e to come the Southern country will absorb more of prove so large as is generally supposed. It matter of course, and, even if approaching to accuracy reaching our hands or the marts of commerce, while in the interval there will be no new crop planted by the

indred millions of five-twenty bonds in Europe is element of weakness in our national finances, as it con-have been better for is. The quotations, too, in London for Illinois Central, Reading and Eric railway stocks tively little importance.

the covernment our national debt could be wined out it ten years we did not mean to be understood as intimating culated to extinguish the public liabilities in so speedy a The one, two and three years compound interest-bearing legal tenders, the certificates of indebtedness, the bone likely to be redeemed in the order in which we have tion, the smaller loans being paid off in the intervenis time as they became due. The payment of the ten-for to nearly three hundred millions, to be used as for the circulation of the national banks.

THE METROPOLITAN CHARITIES.

Commissioners of Public Charities and Correction for the Year 1864.

OFFICE OF THE COMMISSIONERS OF PUBLIC CHARITIES AND CORRECTION, No. 1 BOND ST.,

NEW YORK, Jan. 1, 1865.

TO THE LIGIBLATURE OF THE STATE OF NEW YORK, AND THE BOARD OF SUPERVISORS OF THE COUNTY OF NEW YORK, AND THE THE COMMISSIONERS OF THE COUNTY OF NEW YORK.

The Commissioners of Public Charities and Correction, in conformity with the law creating the Department, have the honor to submit the following report of their labors for the past year.

It will be seen, upon an examination of the details of the receipts and expenditures of the Department, that, notwithstanding the very form dable increase in the cost of all articles of consumption, and the additional sums necessarily paid for services to carry on the affairs of the Institutions, the exercise of strict economy has enabled the Commissioners to present an account which they helieve will compare favorably with those of other similar trusts throughout the country.

Unavoidable circumstances have prevented an earlier presentation of this report, and yet there would seem

nected.

With this view the commissioners have obtained plans for the building of an edidee upon Ward's Island, which while it is sufficiently large to test, in all points, the value of such a provision, can be easily extended to embrace the full requirements of the city for a long time to come.

The building in contemplation at Bellevue Hospital is intended to afford all the necessary provisions for the accommodation of the increasing demand of the city for a dead house, for legal examinations, post mortem investigations, coroners' juries, and accommodations for medical and surgical relief to out door poor, and all the varied requirements of an institution of that sort, besides furnishing the necessary room and accommodation for the use of the Bellevue Hospital College—an institution united by common interests and a perfectly good understanding, with the welfare of the institutions in charge of this commission, and already known throughout the country as by far the most important institution of its kind on this continent.

In this connection it may be well to state that during the last year we have had an unprocedented increase in the number of patients suffering from small pox, ship fever and other virulent dissues, requiring us to furnish additional buildings and tents, beside the additional requisite attendance from medical men, nurses, and all the paraphernalis of hospital service. This has entailed not only a large additional expenditure of money, but has council and parameters of the parameter and accountry and accountry and accountry and all the paraphernalis of hospital service. This has entailed not only a large additional expenditure of money, but has council and parameters of the parameter of money, but has council and parameters.

e shoften the pulse of most war one warm in er control
and treatment. We would most earnesdyepent the
youngement and recommendations expressed the last avter mal report in refreshed to a large number of irsons who
is occupy these institutions. Although the victos of their
consideration which poor, unfortunate and ding creatconsideration which poor, unfortunate and ding creat-

every citizen may feel an interest, and eveloff connected with it a pride and consolation, when per discreedly and honestly administered.

On the advent of this commission, presented object of painful contemplation. The history of the anterior to the administration of this Board, with the recollection of all observing citizens. Since well fortified, were made, alleging the existent of min and other evidences of neglect, which all a record revolting to those in the least interests welfare of the sick and the suffering. In control with the condition of things in this hospital at their we are now able to present to the people of the New York a well administered institution in a partments, its officers co-operating harmonicosly in the discharge of their varied duties, guarde expenditures, and pre-eminent in its character fullness and good government.

OUR MEDICAL DEPARTMENT,

which is almost entirely based upon the connels are with the Medical Board of Bellevue Hosp, a just claim to our acknowledgments for its attempts a just claim to our acknowledgments for its attempts and provided the sick, and for its general administration of a pitals in the medical and surgical departmen number requiring attention from this departmen hourly and momentarily necessarily calls larged the time and talents of the Board of Physicians college, as well as those who are co-operating them, under their instractions, in different he

hourly and momentarily necessarily calls largely of the time and talents of the Board of Physicians the college, as well as those who are co-operational them, under their instructions, in different has it has been our endeavor, under all circumstang to units with them in every proposed advancement he science of medicine, and to do our share toward explicitly and the connection of that department with the gene if ministration and government of the institutional hoped thus to secure, beyond peradventure, the bessible attention, the surcest, safest and wisest apply of experience, education and attention of those for two are bound to act as guardians, in the absence of and ability to provide for thomselves.

Our DOOM MEDICAL AND SURGICAL EXLIST.

From time to time, during the last few year Commissioners have had under consideration the sition, in connection with the Bellevue Hospital M. Board, of the establishment at that point in the coplated new building, of specialities in connection wo out door medical and surgical department for the of the poor; and they have concluded that the make a trial sufficient for testing the usefulness propriety of such bureau.

THE BAKENT, THE CITY CHEMPERST, THE AUXILLIANT PRIS and all the various objects of lesser importance united in the government of these institutions make its factory reports, and promise to advance in meas of comomy and usefulness.

INECTY PRISON,

which connects all the other prizers of the city, h united approbation in its administration; and, c ering the mode of treatment by our courts of the of inmates thrown under the jurisdiction of the W of that institution, we may congratulate ourselve with the Matron and Mrs. Foster, Mrs. French and a helicers, we have assurance of continued good as a helicers, we have assurances of continued good as

with the Matrop and Mrs. Foster, Mrs. Franch and of as helpers, we have assurances of continued good gos-ment, which is creditable to those who are immedif-connected with it, as well as to those of us who ar-sponsible for it.

We should do injustice to curselves if we did-unite in informing our fellow citizens of the very pious streams of unobtrustve philauthropy which illowing from various quarters into the dark region

at ministers of the Gospel of all the various forms it, aided by those who labor incessantly with a f doing good; and not less to be regarded, the of the Sisters of Charity and of Mercy, who with mite, from the beginning to the end, year by year, day and night by night, in the ministration of se—all these consolations have been provided for afortunates by these feeling hearts and liberal

kindness—all these consolations have been provided for our unfortunates by these feeling hearts and liberal hands.

It has not been, so far as our observation extends, always just to augment the expenditures of the department by advancing the pay of the employes of the Commission. We have felt it our duty to hold back, as far as propriety would permit, from advancing the pay of our officers. We have, however, not been unmindful of the proper and just claims, under the circumstances, of a general advance in the prices of most of the necessaries of life. We have, therefore, felt it our duty to add a percentage to the pay of our employes, which we have most cheerfully granted, in the belief that, actuated by the same spirit which induced us to increase the emoluments of office under stress of these circumstances, there will be a readiness on the part of those who have been the recipients thereof to meet a reversed state of things with composure, and willingly return, if it shall be deemed necessary to do so, to the original sums fixed at the commencement of this Commission.

SUPPLIES.

The expenditure of so large an amount of money for the actual supply of this department involves not only a resposibility on the part of the Commissioners in the protection of the inmutes and the poor generally throughout their control, as to the character, the quality and the quantity of the necessaries of life, but also as to the mode of obtaining them. Heretofore, under a system of contracting for the chief articles of consumption, such as max, milk, clothing, &c., they have, under a rigid inspection, been able to guard, to a great extent, the quality of the supplies contracted for

Such, however, has been the condition of the markets for those chief articles of consumption, that it has been found quite unjust, in their opinion, to hold to the strict letter of the contract those who come forward in good faith with a desire to serve the institutions with fidelity and justice. They have, therefore, deemed it their duty to add to th

thoulsi Church, and the Rev. Father Marshall, chaplains; the Rev. Father Doranquet, of the Catholic Church; the Rev. Mr. Crowley, of the Episcopal Church, and clergymen of other religious denominations, has alforded all the spiritual consolation required by the sick and dying in the several institutions on Blackwell's Island. At Randall's Island the services of the Rev. Mr. Feters, of the Episcopal Church; the Rev. Fathers Schneider and Monroe, of the Roman Catholic Church; the Sisters of Charity, Domiteila, Felix, Christine and Bernardine; Mr. F. S. Winston and daughters; Mr. Ssrs. Shepherd, Reed, McCrea, Biddle, Martin, Henderson, Barnum and Brewster, have been truly valuable to the old and young.

Messrs. Shepherd, Reed. McCrea, Riddle, Martin, Henderson, Barnum and Brewster, have been truly valuable to the old and young.

To Mrs. A. H. Gibbons the thanks of the Board are due, for her liberal donations to the children during this and former years.

In cloring this report, the Commissioners unite in gratitude to the Almighty for their preservation from the various epidemics with which their path has been beset. During the five years of their stewardship they have been called to deal with every phase of human sorrow, suffering and criminality, and throughout this period they have, with a deep sense of their responsibility to God and man, worked together harmonicusly and in all singleness of purpose for the relief of the unfortunate, the reclamation of the erring, and the accomplishment of the best sealts within their reach. How far their efforts have succeeded, the admirable condition of the institutions under their charge will bear witness.
